Performance Evaluation of the Api Wenuwen Api Fund

Number of the Report : DEF/C/AWA//06/22/PA/08

National Audit Office

1 Executive Summary

With the objective of providing assistance by granting loans for the construction or purchase of houses for members of the armed forces who fought to uphold the unity and territorial integrity of the motherland, the Api Wenuwen Api Fund was established in 2008 as a public donation-based initiative. Utilizing its revenue, the Fund implemented full and partial housing assistance programs to support war hero families without permanent residences and to improve the livability of partially constructed houses. Accordingly, from 2010 to 2023, the Fund has provided Rs. 3,939 million in housing assistance, facilitating the construction of 1,516 complete houses and supporting 2,440 partially built houses.

The operations of this Fund are governed by a Board of Management chaired by the Secretary of the Ministry of Defence. The Fund's financial and operational activities are carried out through the accounting and administrative divisions functioning under the supervision of the Secretary of the Fund.

The Fund generates revenue through public donations, investment interest income, transmission tower earnings, installment payments from the Ranajayapura housing project, and other sources. This report has been issued to evaluate whether these funds have been utilized economically, efficiently, and effectively, in accordance with the objectives of the Act, to fulfill the housing needs of war heroes.

Although Section 4 of the Act outlines four aims and objectives of the Fund, as specified in Section 4(a), only the objective of providing assistance for housing facilities to eligible members of the armed forces has been implemented. The other stated purposes of the Act, such as implementing programmes to grant loans to members of the armed forces for the construction or purchase of houses, have not been carried out.

Furthermore, in accordance with Section 14 of the Act, no regulations or directives appear to have been formulated or enforced regarding the manner and procedure for the disbursement of funds the Fund, as stipulated in the provisions of the Act.

Despite nearly 14 years having passed since the enactment of the Act, it was possible to identify war hero families in need of housing who lacked proper awareness of the benefits of the Fund or the application process. Accordingly it was observed that, no structured mechanism was in place to ensure equal access to benefits for all eligible individuals. Furthermore, instances were identified where disabled war heroes, who should have been given the highest priority due to their critical housing needs, had not received benefits from the Fund, while benefits had been granted to those who deserved minimal priority. Accordingly, it was revealed that the entitlement of benefits had not been carried out based on proper prioritization.

It was observed that parallel institutional structures exist in this field, engaging in similar activities. Accordingly, while beneficiaries should ideally be selected based on common criteria by these institutions, it was found that since these institutions independently select beneficiaries, there was no assurance that benefits were entitled fairly and based on a priority

framework. Furthermore, an appropriate data system was not in place to either prevent or detect instances of double benefit allocation.

Since a centralized system containing information on all deceased, missing, and disabled members of the Armed Forces and Police, as well as their dependents, was not maintained, the opportunity to systematically and transparently carry out the welfare activities of the war hero community had been missed.

As instances of non-compliance with Board decisions and beneficiary selections made without a clear basis were revealed during audit test checks, it was observed that a specific and uniform method was not followed in the selection process, nor were benefits entitled based on a priority framework.

During the 12-year period from 2010 to 2022, out of 3,080 instances where benefits were granted, 71% or 2,195 instances were allocated to the personnel in the service, while only 29% or 885 instances were granted to individuals from the war hero category who had either died or become disabled while in active duty. Accordingly, it was observed that housing assistance had been predominantly provided to personnel who had joined service before 2009 and were still in active duty, rather than prioritizing deceased and disabled war heroes, who should have been given higher priority.

Considering the observations mentioned above and the findings revealed, this report emphasizes the need for a structured process to allocate benefits based on housing needs and priority, through the establishment of a system that guarantees equal and fair access to benefits for all eligible war heroes, ensuring that the fund is managed efficiently and effectively.

2. Introduction

2.1 "Api Wenuwen Api" Fund

2.1.1 Establishment of the Fund and Aims and Objectives of the Act

The "Api Wenuwen Api" Fund was established under the Api Wenuwen Api Fund Act No. 6 of 2008 to provide loans for the construction or purchase of houses for armed service personnel who fought for the unity and territorial integrity of the motherland.

The aims and objectives of establishing the fund, as outlined in Section 4 of the Act, are as follows:

- To formulate schemes to provide financial assistance for construction of houses for armed service personnel.
- To provide assistance to armed service personnel eligible under the Act to obtain housing facilities.

- To make provision for the grant of assistance to armed service personnel to obtain and repay the loans obtained by them from financial institutions.
- To formulate a scheme to ensure the repayment of the loans, in the event any armed service personnel dies or is permanently disabled or injured, in action or otherwise.

2.1.2 Management and Administration of the Fund

The management and administration of the fund are overseen by a board of six members, as outlined in Section 3 of the Act. This board consists of the Secretary to the Ministry of the Minister in charge of the subject of Defence, a Deputy Governor of the Central Bank, the President or a member of the Council of the Institute of Chartered Accountants of Sri Lanka, the Director or a member from the Postgraduate Institute of Management of the University of Sri Jayawardenepura, and two appointed members with qualifications, experience, or specialized knowledge in the fields of law and finance. The Secretary of the Ministry of Defence serves as the Chairman of the Board. Furthermore, under the supervision of the Secretary of the Fund, the Accounts and Administration Divisions are responsible for managing the financial and operational activities of the Fund.

According to Section 5 of the Act, the selection of beneficiaries should be carried out based on a procedure approved by the Board of Management of the Fund. As per Section 13 of the Act, the board has the authority to establish rules regarding certain matters outlined in the Act, and these rules will come into effect once they are approved by the Minister and published in the Gazette. The composition of the board of management and the method of appointment of its members as at 31 December 2024 are outlined in Annex 1.

2.1.3 Staff of the Fund

According to Section 5(2)(d) of the Act, a staff can be appointed for the Fund. At present, the functions of the Fund are carried out by officers and employees attached to the Ministry of Defence. The staff details as of 31 December 2024 are provided in Annex 2.

2.1.4 Revenue of the Fund

The "Api Wenuwen Api" Fund generates revenue through the sources such as public donations, investment interest income, transmission tower income, Ranajayapura housing installment collections, Ranajayapura commercial complex income, and the Swan Boat Project. In 2023, these revenue sources generated an income of Rs. 523.4 million, while the accumulated fund as of 31 December 2023, stood at Rs. 1,435.3 million. However, as per the Cabinet decision dated 23 February 2009, the revenue received by the tri-forces from external sources must be credited to the "Api Wenuwen Api" Fund through the Consolidated Fund. The income generated by the "Api Wenuwen Api" Fund from various sources between 2009 and 2023 is presented in Annex 3.

2.1.5 Present Functioning of the Fund

According to Section 4 of the Fund Act, one of the objectives is to formulate schemes to provide financial assistance for the construction of houses for members of the armed service personnel. In line with this objective, a Full Housing Project was implemented to provide a financial grant of Rs. 1,500,000 in three equal installments for the construction of houses for the closest relatives of war heroes who do not own a house and who were either disabled or deceased in active duty. Additionally, a Semi Housing Project was introduced to provide a maximum financial grant of Rs. 750,000 in three equal installments for the completion of partially constructed houses of such war heroes. Furthermore, since 2022, the Management Board has approved an increase in the financial assistance provided under the Full Housing Project to Rs. 2,000,000 and under the Semi Housing Project to Rs. 1,000,000.

The selection process for beneficiaries under these two housing assistance programs has been approved by the Board of Management. Accordingly, the preparation of priority lists of eligible members of the Tri-Forces and Police and their submission to the Fund are carried out by the respective Welfare Directors of each force. Based on the approved number of beneficiaries for each year, the final selection is made through an interview process conducted by the Fund, following the order of the priority list.

2.1.6 Selection of Eligible Parties for Benefits of the Fund

The criteria for selecting eligible parties for benefits under the Full Housing Project and the Semi Housing Project were approved at the Management Board meetings held on 23 February 2017 and 03 July 2018. Details of these criteria are presented in Annex 4.

Furthermore, during the approval of the Fund's annual action plans for the years 2020 and 2021, the Board of Management emphasized the need to follow specific procedures regarding housing assistance. These procedures included obtaining the list of eligible war heroes from the Tri-Forces and the Police Welfare Directorate, verifying eligibility through an interview panel appointed by the Ministry, and preparing a prioritized list based on the interview results. The details of these procedures are provided in Annex 5.

2.1.7 Mechanism for Disbursing Benefits under the "Api Wenuwen Api" Fund

(a) Full Housing Project

From 2010 to 2017, the mechanism in place for the Full Housing Project involved utilizing the Fund's allocations to provide construction materials for the building of houses for deceased and disabled members of the Tri-Forces and Police who did not own a house. Additionally, construction work was carried out using military construction teams.

Considering the issues that arose under the previous system, the Board of Management approved on 03 July 2018, the provision of a financial assistance of Rs. 1,500,000 in three

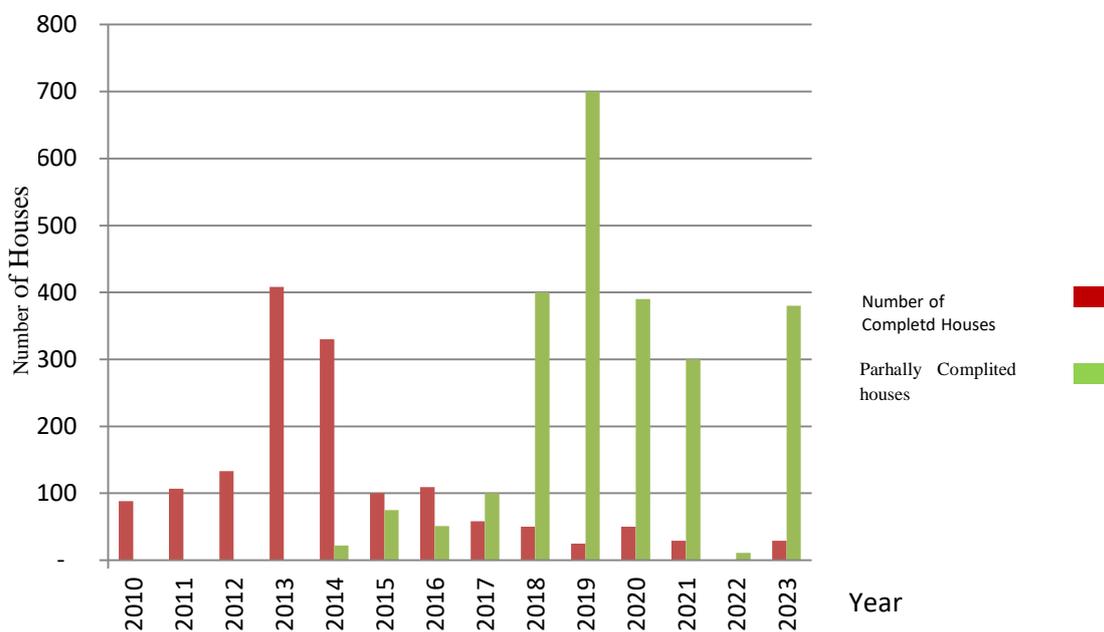

equal installments for the construction of full houses, along with the use of military work teams for the construction. Since then, this method has been implemented for full house construction, and from 2022, the amount has been increased to Rs. 2,000,000.

(b) The Semi-Housing Project

From 2014 to 2016, provisions from the Fund were utilized to provide materials and construction teams to complete the partly completed houses of deceased, disabled, or serving members of the Tri-Forces and the Police Service.

Approval was granted by the Board of Management on 23 February 2017, to provide financial assistance in three installments, up to a maximum of Rs. 750,000, along with supervision of construction Since 2017. From 2022 onward, approval was granted to increase this amount to Rs. 1,000,000.

During the period of 14 years from the inception of the Fund in 2010 until 2023, financial benefits amounting to Rs. 3,949 million were provided for the construction of 3,944 houses, including 1,516 fully completed houses and 2,428 semi-completed houses. Details are provided in Annex 06. The distribution of fully and semi-completed houses from 2010 to 2023 is shown in the following graph.

2.1.8 Investments of the Fund

In accordance with the powers outlined in Section 5 of the Fund Act, various revenue sources were established, including raising funds from domestic and foreign sources, accepting grants and donations, investing funds, generating investment income, and conducting lotteries to

raise funds for achieving the Fund's objectives. Accordingly, after disbursing financial assistance for fully and semi-completed houses and covering administrative expenses each year, the remaining funds were invested in fixed deposits in state banks and Treasury bills. As of 31 December 2023, the value of such investments amounted to Rs. 1,345 million. Additionally, six current accounts were maintained in state and private banks for fundraising and other financial transactions, with a total balance of Rs. 10.4 million as of 31 December 2023. Further details are presented in Annex 07.

2.1.9 Related Institutions

The following institutions can be identified as related entities that contribute to fulfilling the responsibilities of the Api Wenuwen Api Fund. Their respective roles in relation to the Fund's activities can be outlined as follows.

Related Institution	Contribution of the institution in relation to the Fund's operations
-----	-----
i. Ministry of Defence	<ul style="list-style-type: none"> • The Secretary of the Ministry of Defence acts as the Chairman of the Fund and the Ministry is responsible for the supervision and management of the Fund.
ii. Sri Lanka Army	<ul style="list-style-type: none"> • Preparing and submitting priority lists of qualified Army personnel for the benefits of the Fund. • Monitoring and reporting on construction activities. • Processing and reporting on benefit payments.
iii. Sri Lanka Navy	<ul style="list-style-type: none"> • Preparing and submitting priority lists of qualified Navy personnel for the benefits of the Fund. • Monitoring and reporting on construction activities. • Processing and reporting on benefit payments.
iv. Sri Lanka Air Force	<ul style="list-style-type: none"> • Preparing and submitting priority lists of qualified Air Force personnel for the benefits of the Fund. • Monitoring and reporting on construction activities. • Processing and reporting on benefit payments.
v. Sri Lanka Police Department	<ul style="list-style-type: none"> • Preparing and submitting priority lists of qualified members of Sri Lanka Police personnel for the benefits of the Fund.
vi. National Defence Fund	<ul style="list-style-type: none"> • It is a Fund established to provide financial support for national security, and currently, housing assistance programs for war heroes are being implemented

alongside the “Api Wenuwen Api” Fund.

- vii. Ranaviru Services Authority
 - The fund was established with the aim of ensuring the welfare of families of war heroes who sacrificed their lives during operations and those war heroes who became incapacitated and were retired during active duty. It also focuses on providing suitable land for war hero families who lack land, fulfilling housing and land requirements for members of war hero families, and providing the necessary support for these needs.
- viii. Land Commissioner General’s Department
 - Provision of state lands for the settlement of landless war heroes based on the Cabinet Memorandum No. CP/20/1616/322/003 dated 13.10.2020 and the Cabinet Approval dated 17.11.2020.

2.2. Authority for Audit

This performance audit was conducted in accordance with Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka and Sections 3(1)(c), 5(2), and 12(h) of the National Audit Act, No. 19 of 2018.

2.3. Objective of the Audit

The primary objective of this audit was to evaluate whether the objectives of establishing the Api Wenuwen Api Fund, which was created to provide loans for the construction or purchase of houses for eligible members of the armed forces who fought for the unity and territorial integrity of the motherland, have been achieved as expected by its beneficiaries.

2.4. Scope and Limitations of the Audit

In 2020 and 2021, the Fund provided full housing assistance to 79 individuals across 21 districts and semi housing assistance to 690 individuals. Based on this data, the scope of the audit covers the assessment of beneficiary selection transparency, fund utilization according to established criteria, and the efficiency, effectiveness, and appropriateness of fund utilization through physical inspections. Accordingly, to evaluate the eligibility of applicants who are still awaiting benefits as per the priority lists, a sample comprising 25 % of the 79 full housing beneficiaries and 25% of the 690 semi housing beneficiaries was selected for physical verification in two districts. Additionally, data collection and analysis were conducted using information systems of related institutions.

The audit was conducted based on the performance data of the Fund for the years 2020, 2021, and 2022, considering the limited timeframe available for the audit and the constraints of a limited audit team. Accordingly, the observations and conclusions presented in this report are based on the audit examinations carried out on a sample basis.

2.5. Audit Approach

The Api wenuwen Api Fund has been established as a means of providing loans to members of the armed services for the construction or purchase of houses. Furthermore, although the Fund Act outlines four aims and objectives for the Fund, except for providing assistance for housing construction, no programs have been implemented over the past 12 years to achieve the remaining objectives. During the period under review, the housing assistance provided was not directly disbursed to the relevant beneficiaries by the Fund but was instead released to the Directors of Armed Services Welfare. By the time the financial statements for the years 2022 and 2023 were certified, direct confirmations had not been received to verify that payments of Rs. 128 million and Rs. 7.6 million, respectively, had been made to the relevant beneficiaries within the specified timeframe. Accordingly, the Fund had not implemented a proper mechanism to ensure that the designated amounts were received by the beneficiaries or utilized for the intended purpose. Furthermore, concerns arose regarding whether assistance had been granted on a priority basis to the eligible parties selected under the approved selection process. Due to these concerns, the performance evaluation under the issue-based approach was conducted during this audit.

2.6 Audit Criteria

	Audit Objective	Criteria	Sources of Information
	Identifying and assessing the existing legal framework for achieving the objectives of the Fund.	The legal framework pertaining to the releas of funds.	<ul style="list-style-type: none"> i. Physical Utilization

3. Audit Observations

3.1 Legal Background

3.1.1 Fulfillment of Aims and Objectives

The "Api Wenuwen Api Fund" Act No. 6 of 2008 was enacted as legislation to establish a Fund called and known as the "Api Wenuwen Api Fund" to provide loans for the construction or purchase of houses for armed service personnel; and to provide for matters connected therewith or incidental thereto.

According to Section 4 of the Act, four specific aims and objectives were outlined for the establishment of the fund.

- (a) To formulate schemes to provide financial assistance for construction of houses for armed service personnel.
- (b) To provide assistance to armed service personnel eligible under the Act to obtain housing facilities.
- (c) To make provision for the grant of assistance to armed service personnel to obtain and repay the loans obtained by them from financial institutions.
- (d) To formulate a scheme to ensure the repayment of the loans, in the event any armed service personnel dies or is permanently disabled or injured, in action or otherwise.

However, the formulation of schemes to provide the financial assistance for construction of houses or purchase of houses for armed service personnel or the formulation a scheme to ensure the repayment of the loans which had been indicated as the other objectives of the Act had not been implemented in addition to providing assistance to armed service personnel eligible under the Act to obtain housing facilities as per specified in the section 4(b) of the Act.

3.1.2 Formulation and Enforcement of Rules and Regulations of the Fund

According to Section 13 of the Act, the Board of Management may formulate rules regarding matters prescribed under the Act. These rules come into effect after obtaining the approval of the Minister and being published in the Gazette. Similarly, Section 14 of the Act empowers the Minister to issue regulations concerning the disbursement of funds and other related matters of the Fund. It is emphasized that such regulations must be published in the Gazette to become legally enforceable.

However, although the Board of Management had approved a procedure for the disbursement of funds under the financial assistance program implemented by the Fund to provide housing facilities for armed forces members, there was no evidence that rules or regulations had been formulated and enforced in accordance with the provisions of the Act.

It was observed that due to variations in criteria at different times, beneficiaries had not been identified based on a specific and uniform procedure. Furthermore, despite nearly 14 years

having passed since the enactment of the Act, the audit test check revealed that there were war hero families in need of housing who lacked proper awareness of the benefits available under the Fund or the application process. Accordingly, a mechanism ensuring equal access to benefits based on priority for all eligible individuals had not been implemented. Additionally, awareness programs and initiatives to inform the war hero community about the benefits available or the necessary eligibility criteria were minimal. As a result, it was observed that parties that required assistance for house construction or fulfilling basic housing needs had not been included in these aid programs.

3.1.3 Collaboration between Related Institutions

Identifying other institutions established by separate Acts, non-governmental organizations, and internal military welfare funds, which carry out parallel functions and activities under the objectives of this Act, and maintaining coordination between these institutions, can facilitate equitable and fair opportunities for the disbursement of benefits. Additionally, through awareness of the activities of these institutions, as well as information exchange and analysis, it is possible to minimize errors or fraudulent activities and use it as a control mechanism to prevent duplication of benefits.

The main institutions involved in such parallel activities could be identified as the Ranaviru Seva Authority and the National Defence Fund.

(a) Ranaviru Seva Authority

The Ranaviru Seva Authority was established under the Ranaviru Seva Authority Act No. 54 of 1999 to promote the welfare of disabled members of the armed forces and police, as well as the dependents of armed forces and police personnel killed or missing in action and for matters connected therewith or incidental thereto. In accordance with functions of the Authority outlined in Section 4 of the Ranaviru Seva Authority Act, the authority is mandated to provide for the after care and rehabilitation of members of the Armed Forces and the Police Force who have become disabled in action. Additionally, it is responsible for providing housing, medical facilities, and educational opportunities for both disabled personnel and the dependents of those who lost their lives or went missing in action. Accordingly, in alignment with the functions of the Fund, the Authority has implemented the following housing assistance and loan programs for war heroes.

- i. The Viru Sumithuru Housing Program has been implemented by the Ranaviru Seva Authority since 2017 to fulfill the housing needs of the war heroes who sacrificed their lives and became disabled in action. Accordingly, the Ranaviru Seva Authority forwards the list of selected housing beneficiaries to the Housing Development Authority, which, based on Treasury allocations, implemented two grant schemes: a maximum of Rs. 1,200,000 for full housing assistance and Rs. 700,000 for semi housing assistance.
- ii. Accordingly, the Ranaviru Seva Authority recommended housing assistance for 3,312 war hero families to the National Housing Development Authority for a four-year period from 2017 to 2020. However, as of 30 August 2023, benefits had been provided

for only 1,483 of those houses. It was observed that over 1,800 of the war hero families, whose assistance was recommended during this period, were on a waiting list, anticipating benefits. (Details are shown in Schedule 01.)

- iii. Since the Ranaviru Seva Authority was established to provide welfare for disabled war heroes, many war heroes submitted housing assistance applications through that authority. Although beneficiaries could have been selected through a formal, coordinated system among institutions in similar nature, each institution independently handles selection and provision of benefits. Therefore, there was no guarantee that benefits were distributed based on a fair and prioritized system for everyone.
- iv. Although a condition existed stating that beneficiaries of the fund would not be eligible for its benefits if they had received other assistance, no specific limit was defined. Furthermore, due to the absence of such a specific limit, the audit test check revealed an instance where a fully disabled war hero, who had received Rs. 40,000 in assistance for sanitary facilities, was not provided benefits from the fund for his semi-permanent housing.
- v. Although it was stated that beneficiaries would not be entitled to the Fund's benefits if they had received benefits from another similar Fund or institution, the verification of such information was left to the honesty of the beneficiaries. The Fund had not implemented a formal mechanism to independently verify whether a beneficiary had received similar benefits from another institution before making payments. It was also observed that the Fund had not implemented a mechanism to inform other institutions to prevent the disbursement of similar benefits from those institutions when making payments.
- vi. As a result, audit test checks revealed instances where the Fund had disbursed similar housing assistance despite such payments already being made by the Ranaviru Seva Authority. Accordingly, in 2017, the Ranaviru Seva Authority had provided Rs. 1,425,000 in semi-housing assistance to three beneficiaries, while the Fund had also granted Rs. 1,869,450 in semi-housing assistance to the same beneficiaries in 2021 (Annex 08). Furthermore, during the sample audit tests, it was revealed that 44 individuals, who had received Rs. 750,000 each in semi- housing assistance from the Fund, were also included in the records sent to the Housing Development Authority for approval and payment of housing assistance by the Ranaviru Seva Authority. Details are shown in Annex 09.

(b) National Defence Fund

The National Security Fund was established under the National Security Fund Act No. 9 of 1985 as a fund for the provision of financial resources for national security. Under this fund, assistance was provided for semi-housing under the Methsevana War Heroes Housing Program, with a maximum limit of Rs. 750,000.

3.2 Work Planning of the Fund

3.2.1 Long-Term Planning

Apart from preparing the annual action plans for the Fund, long-term plans, including activities, objectives, and performance measurement indicators for the coming years, had not been prepared. Accordingly, necessary plans for future actions, such as investment management, income targets, or achieving sustainable development goals, as well as other objectives outlined in the Act, had not been formulated. As a result, the institutional vision, mission, and objectives were not clearly defined, and strategic planning to assess the Fund's future direction, considering existing strengths, weaknesses, opportunities and threats, had not been carried out to achieve long-term goals.

3.2.2 Action Plan

The Fund's 2022 action plan initially outlined providing housing assistance for 25 complete houses and 350 semi houses, subject to an amount of Rs.300 million. However, due to the plan's failure to implement, the governing board had approved, on 27 September 2022, the allocation of assistance for 30 complete houses and 400 semi- houses for both 2022 and 2023. However, a well-structured action plan outlining the timeline for implementing this housing assistance program, the program phases, responsible officers, and the method for selecting the expected targets or beneficiaries was not prepared, nor were progress reports drafted accordingly. Accordingly, it became impossible to subsequently follow up on the targets set for each year, the amount of resources that should have been allocated to them, and the targeted payment opportunities.

3.2.3 The Need for an Information System

- i. According to Section 6 of the Ranaviru Seva Authority Act, a list of all members of the armed forces and the police force who have become disabled in action and the dependents of all members of the armed forces and the Police force who have been killed, or are missing in action, should have been prepared within 60 days of the Act coming into effect. However, such a prepared list was not presented for audit. Without the establishment, updating, evaluation, and monitoring of such a centralized information system, it was not possible to ensure that the welfare activities of the deceased, disabled, and other war hero communities were conducted systematically, transparently, and fairly for all.

- ii. In order to select eligible individuals on a uniform basis with coordination between different institutions, the letter issued by the Secretary of Defence dated 21 September 2020 bearing number MOD/ADM/AFW/07/MS(1), titled "Selection of Applicants for Ranaviru Projects of the Ministry of Defence," stipulated in paragraphs 5 and 6 that the lists of eligible applicants for housing projects of the Tri-Forces and the Police should be entered into a welfare project database of the Ministry of Defence. However, it was observed that such a database had not been established even as of the audit date.

3.3 Financial Status of the Fund and Sources of Fund Collection

3.3.1 Financial Status of the Fund

In the year 2023, the operational result of the fund showed a surplus of Rs. 75,144,999, while the corresponding surplus for the previous year was Rs. 398,875,766. Accordingly, a decrease of Rs. 323,730,767 was observed in the financial result. The reduction in the surplus was due to the Fund providing housing assistance to a larger number of beneficiaries in 2023 compared to 2022. Further, the accumulated fund as of 31 December 2023, amounted to Rs. 1,435 million.

3.3.2 Sources of Income

At the inception of the Fund, 80 percent of the total income was received through donations. However, by 2022 and 2023, the income from donations had decreased to less than one percent. The main sources of income for the Fund in 2022 and 2023 were transmission tower revenue, interest income from fixed deposits, and installment payments from the Ranajayapura housing project. The following observations were made regarding these sources:

- (a) It was observed that since the revenue of the Fund was insufficient for current activities, the capital requirements had been met by liquidating the fixed deposits during the period from 2018 to 2020. Although a revenue surplus was reported in 2021 and 2022, the failure to disburse housing assistance as planned during those years contributed to this surplus. Details are provided in Annex 10.

Accordingly, it was observed that adequate attention had not been given to expanding revenue streams in the context of ensuring the going concern of the Fund.

- (b) It was agreed that 30% of the revenue generated from the Swan Boat Project, operated by a private entity, should be allocated to the Fund. Accordingly, estimated revenue of Rs. 300,000 and Rs. 200,000 was expected for the years 2021 and 2022, respectively. However, no revenue was received in 2021, and the actual revenue for 2022 amounted to only Rs. 120,000.
- (c) Although the provisions of Section 5(2)(1)(a) of the Act provide for the organization of a lottery under the regulations of the Lotteries Ordinance (Chapter 45) to raise funds for achieving the objectives of the Fund, no revenue has been generated through this method over the past 14 years.

- (d) The Fund maintained a balance ranging from Rs. 3 million to Rs. 24 million in its fund management savings account during the year 2022. However, insufficient attention was paid to investing surplus funds in higher-yielding short-term investments, while identifying the working capital needs of the Fund.
- (e) According to Section 5(2)(1)(a) of the 'Api Wenuwen Api' Act No. 06 of 2008, it was a responsibility of the board of management of the Fund to raise funds from domestic and foreign sources, and to accept grants, awards, and donations to grow the fund. Although programs should have been implemented to increase donation income from domestic and foreign sources for the Fund, sufficient attention was not paid to this matter.
- (f) As per a decision made by the Cabinet of Ministers on 25 March 2009, the Ipalogama Ranaviru Housing Project was implemented using a loan of Rs. 3,500 million obtained from a state bank, on a reimbursement basis by the General Treasury. This project consisted of 1,509 houses, and was opened on 23 November 2009, with common facilities including 23 shops.

The value of each house was determined to be Rs. 800,000, and they were provided in several phases under a system in which beneficiaries would repay the amount due to the Fund in 200 equal monthly installments of Rs. 4,000. As of 19 January 2023, members of the Tri-Forces were occupying 1,057 houses. Observations regarding this installment income were as follows:

- (i) As of 31 December 2022, it was reported that Rs. 42,968,024 was due to the Fund for arrears in installments. Compared to the previous year, this amount had increased by 15 percent, or Rs. 5.60 million, in 2022. By 31 December 2023, the outstanding installment income had further increased to Rs. 43.50 million. Therefore, it was essential to focus on ensuring proper coordination between relevant sectors to collect installment payments without delay. Under these circumstances, it was observed that the collection of housing installment payments from former beneficiaries who had retired from service had been adversely affected.
- (ii) Under the Ranajayapura Housing Project, a commercial complex consisting of 23 shops and a conference hall was constructed and operated. It was observed that, at the time of the establishment of the commercial complex in 2009, the parties who had obtained the shops continued to use them under the same rental terms without any adjustment to the rent that had been initially set. Furthermore, no consideration was given to offering shop under competitive pricing, in a manner that would provide opportunities for other interested parties to operate businesses within the complex.

- (iii) There was no program to utilize the conference hall, which existed as a common facility, for the purpose of increasing the Fund's income through formal utilization. Although a state bank branch was located within the commercial complex, the possibility of charging rent for that building had not been considered.

3.4 Selection of Beneficiaries

The following weaknesses were observed concerning the procedures, criteria, and documentation maintained for selecting eligible parties entitled to the benefits of the Fund.

3.4.1 Weaknesses in Maintaining Files and Records

Although an individual file containing documentary evidence should be maintained for each beneficiary to confirm that the selected recipients meet the required qualifications and that all information provided is accurate and truthful, it was observed that the files maintained by the Fund for beneficiaries did not meet these requirements. Several such weaknesses observed during audit test checks are listed below.

- (a) According to the instructions issued by the Secretary to the Ministry of Defence on 12 September 2020 under reference number MOD/ADM/AFW/07/MS(1) to the Commanders of the Tri-Forces, applicants seeking housing benefits were required to submit certified copies of the following documents along with the original application.
- The deed of the land on which the house is to be constructed (must be owned by the applicant or spouse).
 - The most recent folio obtained from the Land Registry.
 - The site plan/house plan approved by the relevant local government authority (for semi housing assistance).
 - If the war hero is deceased, the death certificate; if disabled, both the medical report indicating the disability percentage and the commander's conclusion report.
 - A certified copy of the applicant's National Identity Card.
 - If married, the marriage certificate.
 - If there are children, their birth certificates.
 - A certification from the Grama Niladhari regarding the current place of residence (as per DS04 format).
 - If the applicant does not own a house, a letter issued by the Grama Niladhari confirming the absence of a house (including details if residing in a rented house and whether any house is owned as inheritance).
 - A copy of the salary slip for the last month.

Although the fully completed housing assistance application, prepared in accordance with the format introduced in the above letter, should be duly filled and signed by the applicant, covering information from sections 1 to 21, and submitted with the recommendations of

the Grama Niladhari, the Commanding Officer/Divisional Head, and the Director of Welfare, out of 61 files selected for audit test check, there were 3 files without containing a housing assistance application and 18 files including applications without any recommendations. Furthermore, it was observed that out of 15 files related to the year 2021, applications in 11 files had been submitted without the recommendation of the Director of Welfare Services.

- (b) Furthermore, although all documents submitted with the application must be certified copies as per the above directive letter, out of the 46 files presented for audit, 22 contained uncertified photocopies of documents. Similarly, out of the 15 files related to the year 2021, 10 did not include the original application signed by the applicant.
- (c) Furthermore, the files did not contain any records indicating that the applicants had been summoned for interviews or that they had qualified for benefits based on the interview results. Additionally, there were no documents on file confirming that the applicants had been formally notified in writing of the amount awarded as financial assistance or that an agreement or any related document had been executed between the two parties. Moreover, no file entries had been made regarding these matters.
- (d) When assessing eligibility for full housing benefits, the relevant Grama Niladhari must certify that the applicant does not own a house for residence. However, it was observed that, out of the 15 files related to the year 2021, 2 files did not contain the required certification from the Grama Niladhari confirming the lack of a residential house.
- (e) The file (O/62249) of a full housing beneficiary for the year 2021 contained only an uncertified photocopy of the land plan. Additionally, it did not include the beneficiary's application or any other documents mentioned in subsection (a) above.
- (f) Furthermore, all documents included in the audited files were either photocopies or certified photocopies. Although, according to the established criteria, a formal interview should have been conducted to verify the authenticity of the original documents, there was no evidence to confirm that such an interview had taken place or that the authenticity of the documents had been verified.
- (g) Annex 01 of the aforementioned letter stated that the following qualifications would be considered when granting semi housing benefits:
 - Being an officer of the Army with the rank of Major or below.
 - Giving priority to other rankers.

However, it was observed that benefits had also been granted to three officers holding ranks higher than Major in the Army. Furthermore, out of the 11 beneficiaries, only 5 were other rankers who qualified under the priority category, while benefits had been granted to 6 officers who did not belong to the priority category.

The examination of the files maintained for these beneficiaries revealed the following deficiencies:

- (i) According to the file for Service Number NRI/ 1185, although the application submitted by the applicant had been recommended for full housing assistance, semi housing benefits had been granted instead. Nevertheless, the file did not contain the Grama Niladhari's certification confirming that the applicant's current residence was a partially completed house, which is a key criterion for semi housing benefits. As a result, details such as the number of household members, the duration of residence, and whether the applicant was living in a rented house remained unverified. Additionally, there was no independent verification of the extent of completion of the partially built house or the remaining construction required. Furthermore, active service duty is considered a criterion for granting semi housing benefits. However, the application did not indicate that the officer was engaged in active service. Moreover, the application did not confirm compliance with the established criteria. Additionally, the file did not contain necessary documents such as the street line certificate or a copy of the applicant's last month's salary slip.
- (ii) According to the file for Service Number O /62825, the housing assistance application was submitted on 10 June 2022. However, the Grama Niladhari certificate related to the applicant's current residence (Form DS04) had been issued on 11 May 2019, by the then-serving Grama Niladhari, approximately three years before the application date. Accordingly, it was observed that the document was a photocopy of an expired certificate by the time the application was submitted. Additionally, the photographs of the applicant's house, which were submitted along with the application, had been certified by the same Grama Niladhari on 08 May 2019. Furthermore, although the Grama Niladhari is required to certify that the house belongs to the applicant and includes portions that were not constructed according to the approved plan, the photographs submitted only indicated ownership of the house, with this information written on their backs. It was observed that the Grama Niladhari (current) had merely recorded, as per the applicant's request, on 26.05.2022, that the house was partially completed, and that this document did not constitute a certification as per the aforementioned letter. Furthermore, it was observed that copies of the officer's National Identity Card, land deed, street line certificate, marriage certificate, children's birth certificates, and the salary slip for the last month included in the file had not been certified as true copies.
- (iii) According to the file of Service No. O/66956, eligibility criteria for receiving the semi housing benefit include being married (except for fully disabled and deceased war heroes) and being engaged in active duty. However, it was observed according to the file that the beneficiary was unmarried, and there was no evidence in the file to confirm the engagement in active duty. Furthermore, only uncertified copies of the salary slip for the last month (May 2022), the land deed, and the street line certificate had been submitted. Nevertheless, the officer had been granted the semi housing benefit of Rs. 750,000.

Furthermore, the field inspection conducted regarding these constructions revealed that, although the semi housing benefit had been granted for this house, it was a fully completed residence suitable for occupancy. It was also observed that the assistance provided had been used to construct an additional bathroom and an extension adjacent to the house that was not included in the approved housing plan.

- (iv) According to the file of Service Number - O /61840, the submitted application was a photocopy, and it had not been recommended by the Director of Ranaviru Services / Director of Welfare for the housing project benefits.

3.4.2 Failure to Inform Beneficiaries about the Ranaviru Housing Programme

According to the eligibility criteria followed in granting benefits from the Fund, individuals must have been enlisted in the armed services before 18 May 2009, and must have been engaged in active duty. Accordingly, deceased, missing, disabled, retired, and serving war heroes who satisfy these requirements are entitled to the benefits of the Fund. However, since the annual application process for benefits is conducted through respective regiments and units, it has been revealed that there is no proper communication to retired personnel and the families of deceased and missing war heroes.

Therefore, it was observed that war heroes who had lost their lives or suffered physical disabilities and faced housing issues, who should have been given priority, had either not received benefits or were still in the waiting list of the Ranaviru Seva Authority expecting benefits. Accordingly, as of 10 October 2023, data from the Ranaviru Seva Authority revealed that applications from 1,829 war heroes belonging to the deceased, missing, and disabled categories were still pending for housing assistance.

However, as revealed through audit test checks, benefits have been granted to individuals with minimal priority and those in active service. Based on these findings, it was observed that proper communication has not been ensured to provide equal and fair opportunities for all eligible beneficiaries of the Fund.

3.4.3 Weaknesses in the Beneficiary Selection Process

During audit test checks conducted to determine whether eligible parties were prioritized for benefits based on a specific and uniform selection process for beneficiaries, the following instances of selections not aligned with management board decisions and selections made without a clear basis were observed.

(a) Selection of Beneficiaries for Semi/ Full Housing Assistance in 2020

- (i) According to the management board decisions dated 05 March 2020, 19 and February 2021, agreements were to be entered into with the beneficiaries and these agreements were to be signed by the Secretary of Defence, or an authorized officer delegated by him, as the first party representing the Fund. However, instances were observed where these signatures were placed. Accordingly, the agreements for 79 full housing assistance

projects and 690 semi housing assistance projects provided in 2020 and 2021 lacked the signature of the first party.

- (ii) Following an agreement reached at the progress review meeting held on 28 August 2019, the Director of Army Ranaviru Services cancelled the 2019 beneficiary list and submitted a new beneficiary list for 2020. However, 127 members whose names were not included in the new list had been granted benefits in 2020 (Annex 11).
- (iii) Furthermore, 23 members whose names were not listed in either the aforementioned cancelled 2019 list or the new 2020 list submitted by the Director of Army Ranaviru Services had been granted benefits. Additionally, it was observed that 22 of these members were applicants serving in the lowest priority category. Since no interviews were conducted for these individuals, the basis for their selection could not be determined during the audit.
- (iv) The Board of Directors of Ranaviru Services had recommended application of 25 applicants for benefits, including three disabled war heroes who died while retired due to medical grounds, three fully disabled war heroes, and 19 war heroes retired due to medical grounds. However, these individuals were not called for interviews, thereby depriving them of the opportunity to claim their entitled benefits.
- (v) In the selection of beneficiaries for the year 2020, an interview panel consisting of four members was appointed. However, according to the reports of the interview panel, it was observed that not all members had signed and confirmed the reports. Additionally, six individuals who were not listed in the names recommended by the Directorate of Welfare of the Army were invited for interviews contrary to the criteria specified in the selection guidelines and benefits were granted to three of them. (Details attached in Annex 12)
- (vi) According to the information presented for review, on 09 January 2020, nine members of the Air Force were invited for an interview. However, since these individuals were not included in the list of names recommended by the Directorate of Welfare of the Air Force, (Annex 13), the reason for inviting these non-recommended applicants for the interview in violation of the prescribed procedure was not clarified during the audit.
- (vii) According to the action plan for the year 2020, the board of management approved the provision of benefits to 100 members of the Sri Lanka Police through the semi-housing project. However, benefits were provided to only 90 members. Furthermore, while 63 individuals included in the beneficiary list recommended by the Police Welfare Director for the year 2020 received benefits, 27 individuals outside of that list (Annex 14) also received benefits. However, the basis for selecting these additional beneficiaries was not revealed during the audit.
- (viii) According to the 2020 action plan, the board of management had approved the provision of benefits to 60 Sri Lanka Navy personnel through the semi housing project. Accordingly, the Naval Welfare Director had recommended and forwarded a list to the

Fund on 20 February 2020, containing 123 eligible personnel, ranked by seniority. While it would have been more equitable to prioritize the list based on housing need, the seniority-based listing disregarded the priority of housing needs. Consequently, it was observed that attention had not been paid to presenting the beneficiary list on a consistent and uniform basis.

(b) Selection of Beneficiaries for Full Housing Assistance in the Year 2020

According to the 2020 action plan, the board of management had approved the provision of full housing benefits to 07 members of the Sri Lanka Navy. Accordingly, a list containing 68 recommended Sri Lanka Navy members who met the eligibility criteria was submitted to the Fund by the Navy Welfare Director. However, without considering this recommended list, the Fund provided benefit entitlements to 04 navy members who were not included in those lists.

Accordingly, it was observed that selecting beneficiaries outside the name lists chosen, recommended, and submitted by the military welfare directors under the management board's approval, without providing justifiable reasons, is a violation of the existing procedures.

(c) Selection of Beneficiaries for Partial Housing Assistance in the Year 2021

- (i) Although the board of management approved assistance for 350 houses for the year 2021, it was later reduced to 300. While the management board had approved providing semi housing benefits for 88 police personnel, the police did not receive entitlements for such benefits. However, without prior approval from the management board, the number of approved beneficiaries for the tri-forces was increased by 38.
- (ii) Although benefits were to be provided to construct six completed houses to the Police as per the approval of the Management Board, the number was reduced to one. However, the number of fully constructed houses approved by the Management Board for the Army and Navy, which were initially 15 and 4, respectively, was later revised and increased by 8 and 1, bringing the totals to 23 and 5. Similarly, while benefits were to be provided for only 25 houses in the year 2021 as per the approval of the Board of Management, the actual number of houses that received benefits exceeded this limit, reaching 29.

3.4.4 The Need for Prioritization in Beneficiary Selection.

- (a) Upon examination of the details regarding the entitlement of benefits over a 13-year period from 2010 to 2022, it was found that out of the 3080 instances where benefits were granted, 71 percent, or 2195 instances, were awarded to the serving personnel category, while only 29 percent, or 885 instances, were awarded to individuals belonging to the war heroes category, who were either killed or disabled in action. Details are provided in Annex 15.

Accordingly, it is observed that the parties who should have received priority have not been given due priority.

- (b) In the selection of beneficiaries for housing assistance in the reviewed years of 2020 and 2021, it was observed that less attention was paid to the priorities for housing assistance, and benefits were awarded with priority given to serving personnel. Accordingly, it was observed that the parties who were killed, fully disabled, or partially disabled while engaged in operational duties did not receive priority in the provision of the Fund's benefits, and that more attention was paid to providing benefits to serving personnel. Details are provided below.
 - (i) In 2020, semi housing assistance was provided to 50 army personnel. According to priority, out of 315 recommended individuals with high priority, only 05 received benefits, while 45 currently serving army personnel received benefits. Furthermore, these 45 army personnel were not called for an interview. Accordingly, in the disbursement of the 2020 fund benefits for the Sri Lanka Army, 4 percent of the benefits were allocated to the priority category, which includes those who died in action, were fully disabled, or partially disabled, while 96 percent was allocated to those in service.
 - (ii) According to the 2020 action plan, the board of management had approved the provision of semi housing benefits to 40 members of the Sri Lanka Air Force. A list of 200 members, recommended as eligible and ranked according to priority, was sent to the Fund by the Air Force Welfare Directorate. However, only 25 members from that list were selected for benefits, and 15 Air Force members not included in the recommended and priority list were chosen. These individuals were Air Force members included in the "serving personnel" category mentioned in a cancelled list sent by the Welfare Director for the year 2018. These individuals were not selected according to priority order.
 - (iii) In the year 2021, the Sri Lanka Army did not grant semi-housing benefits to 17 out of 197 war heroes who had died or become disabled due to operational reasons. However, out of 76 individuals currently in service, 67 had received the benefits.
 - (iv) For the year 2020, approval had been granted to provide full housing benefits to 13 members of the Sri Lanka Police. Accordingly, the Director of Police Welfare had submitted a priority nomination list to the Fund, consisting of 85 police officers who were recommended as meeting the eligibility criteria. However, benefits were granted to only 10 police officers from this list. Additionally, deviating from this, 3 police officers received benefits under the full housing project, but no specific reasons considered for their selection were presented. Furthermore, it was not confirmed that they were selected through a formal interview process, and selections had been made without adhering to the priority order.

Furthermore, among the three full housing units granted outside the recommended full housing benefits list, one was subjected to a sample audit on 11 January 2023. It was

observed that no individual had occupied the house for nearly three years since its construction. (For more details, refer to Section 3.6.6(i))

3.5 Implementation of the Housing Benefit Programme

3.5.1 Granted Housing Assistance

This report analyzes the housing assistance provided over the four-year period from 2020 to 2023. Accordingly, it was observed that the Fund had disbursed housing assistance amounting to Rs. 1,030.20 million to 1,185 military personnel.

The amount of benefits distributed and the number of housing units granted were as follows:

Force	No. of Semi Housing Units	No. of Semi Full Housing Units	Total No. of Housing Units	Total Amount Paid Rs.Million
Sri Lanka Army	581	76	657	591.20
Sri Lanka Navy	188	15	203	176.54
Sri Lanka Air Force	131	0	131	92.52
Sri Lanka Police	179	15	194	169.94
Total	1079	106	1185	1030.20

3.5.2 Disbursement of Installment Funds to Common Accounts

Under the semi and full housing assistance projects, the Fund did not follow a direct payment mechanism to beneficiaries when disbursing the allocated installment amounts. Instead, the funds were remitted to the common accounts of the respective branches of the tri-forces and the police to which the beneficiaries belonged.

Furthermore, a formal mechanism was not implemented to obtain direct confirmations from beneficiaries regarding the receipt of all installment payments through the common accounts. As a result, it could not be verified whether the relevant funds had been disbursed to the beneficiaries in a timely manner. As of 31 December 2022, a total of Rs. 238.28 million had been released to the accounts of the tri-forces and the police for 339 beneficiaries. However, documents confirming that Rs. 128.12 million of that amount was paid to the beneficiaries within the relevant period were not presented to the audit. Furthermore, written evidence confirming that the housing assistance funds of Rs. 7.78 million, which were released to the Tri-Forces and the Police during the year 2023, were received by the respective beneficiaries was not presented to the audit.

3.5.3 Monitoring Physical Progress of Housing Construction

The Fund did not deploy its own staff to monitor and report on housing construction and its physical progress. Instead, 09 officers from the Tri-Forces were deployed at the provincial level. An administrative expense of 02 percent of the annual housing assistance funds released was also allocated to the Tri-Forces to cover the administrative needs of these monitoring teams, including transportation expenses.

- (a) Under the monitoring and administration of the programme, construction service work teams of the Sri Lanka Army Engineer Services Regiment had been deployed for the construction of full housing units. It was also observed that, in some instances, such work teams had been assigned for the construction of semi housing units as well. However, it was noted that a uniform and consistent policy had not been followed in this regard.
- (b) The fund possessed equipment, including machinery and tools, valued at over Rs. 24.00 million, suitable for construction activities. Although these assets could have been utilized for housing construction when needed, based on the recommendations of the supervisory officers, it was observed that such assets were underutilized and, in some cases, provided to external organizations for use.

3.5.4 Matters Revealed During Physical Audits on Beneficiary Selection and Construction

3.5.4.1 Instances of Semi Housing Assistance Granted Despite the Availability of Two-Story Houses for Residence.

- (a) Although housing benefits should be provided based on the priority criteria for making existing residences suitable for living, considering the nature of the housing needs of applicants for semi housing assistance and the introduced indicators, it was found that beneficiaries had been selected without adhering to such a priority basis. As a result, instances were observed where housing assistance was granted to officers with completed multi-story houses for activities such as painting the houses, renovating the houses, and constructing additional houses. Several such instances are outlined below the houses, renovating the houses, and constructing additional houses. Several such instances are outlined below.
- (i) **O/ 62310 - (Colonel):** Semi housing assistance was granted to this disabled war hero for painting his residence and painting the window and door frames. During the physical inspection of the residence and upon comparison with other eligible applicants who had not received benefits, it was observed that this officer possessed a two-story residence. Consequently, this indicates a problematic prioritization in the provision of benefits. Several photographs of the residence are provided below.

Photograph No. 01

Photograph No. 02

(ii) NO. O /66422 - (Major): In 2022, semi housing assistance was approved for this war hero under a special approval from the Ministry of Defence mobile service. However, the assistance funds were granted for the repair of a bathroom and a section of the roof in a two-story residence that was in suitable living condition. It was observed that prioritizing the repair of this residence was problematic, considering the criteria and limitations applied in granting semi housing entitlements.

Furthermore, although provisions existed for deploying work teams for full housing construction according to the established criteria, there were no provisions for deploying work teams for semi housing construction. However, during the audit inspection, it was observed that work teams were deployed for the construction work on this residence.

Photograph No. 03

(iii) The war hero with service number O/64115 – (Lieutenant Colonel) had been granted benefits under the semi-housing project. At the time of inspection, it was observed that 02 officers from the Engineer Services Regiment were being used for roof repair work of the house, and 03 officers from the 10th Gajaba Regiment were being used for wall construction and related tasks. Accordingly, it was observed that a uniform policy was not followed in deploying work teams for semi-housing. Furthermore, it was observed that

the priority allocation method based on the criteria and limitations considered for granting semi-housing ownership was problematic.

- (v) It was revealed that the assistance funds had been utilized for painting the multi-story residence of the parents of disabled retired war hero O/ 61840 – (Brigadier), as well as for repairing and repainting the windows. Furthermore, it was discovered that they are currently residing in another house and are expected to move into this residence upon completion of the renovations. It was observed that the priority allocation method based on the criteria and limitations considered for granting semi-housing entitlement was problematic. Several photographs of the house are as follows.

Photograph No. 04

Photograph No. 05

Although there are legal provisions for granting loan facilities for housing construction to parties in need, in accordance with the purpose of Api Wenuwen Api Fund, the absence of such a loan program has led even financially capable parties to seek assistance funds, as observed above.

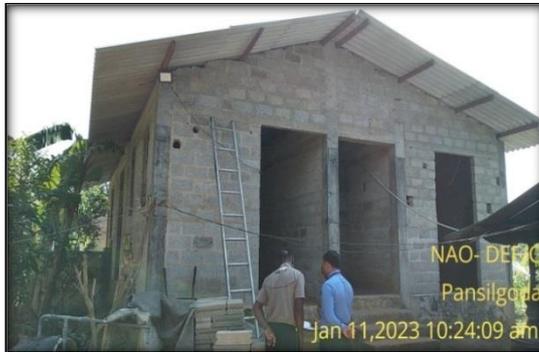

3.5.4.2 Instances where housing could not be made suitable for occupancy due to insufficient benefits.

It was observed that in certain instances, housing construction was halted midway or could not be made suitable for occupancy due to various reasons, such as the lack of financial capacity resulting from illness, excessive living expenses, or the non-receipt or insufficiency of benefits by financially disadvantaged parties.

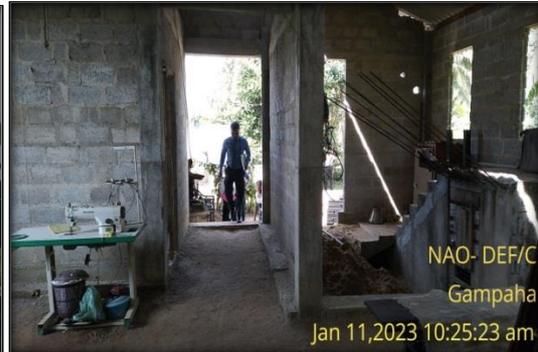

- (i) A full house was under construction on the land provided by the Ranaviru Seva Authority for the wife of the late war hero S/5E02469 (L/C deceased). However, since the land is frequently affected by floods, modifications were made to the approved housing plans accordingly. Additionally, due to rising material costs, the construction incurred higher expenses, making it impossible to complete the work corresponding to the two installments already paid.

A machine was rented on a rental basis for door, window, and other carpentry work. Although the fund possessed such equipment, a program to provide these services in necessary and appropriate situations was not in place. As a result, basic needs such as

door and window installation could not be met. Below are several photographs of the house under construction.

Photograph No. 06

Photograph No. 07

(ii) The house being built for war hero O/61604 - (deceased Lieutenant Colonel) had the walls completed, and timber had been purchased for the roof. Due to the estimated work for the installments paid not being completed, construction had stopped at the time of inspection. Two soldiers from the 4th Engineer Services Corps were deployed to protect the purchased construction materials and other equipment, and the rest of the work teams had been withdrawn. Several photographs of the house are below.

3.6 Achieving the Objectives of the Fund

3.6.1 Gathering Information for Target Setting

It was observed that there is no established data system to accurately account for the exact number of tri-forces and police war heroes who have died, gone missing, or become disabled while engaged in active service. As a result, precise statistical records regarding these individuals and their dependents could not be obtained. As a result, accurate estimates of deceased, missing, and disabled officers, as well as other rankers and dependents, could not

be prepared. Furthermore, although related institutions under the ministry had collected such data for their respective needs, it was observed that these data were not utilized in planning the Fund's future activities or setting targets to achieve its objectives.

However, it was observed that a significant number of war heroes belonging to the categories of deceased, disabled, and retired personnel had been in waiting list for years, expecting housing assistance. Accordingly, despite submitting applications to the Ranaviru Seva Authority during the period from 2017 to 2020, a total of 1,553 war heroes had not yet received housing assistance. The fund had not given due attention to providing housing assistance to this category, which should have been given the highest priority.

3.6.2 Findings Revealed During Physical Audits of Housing Needs

The findings revealed during the physical audits conducted regarding the housing needs of war heroes and the condition of their current residences were as follows.

3.6.2.1 Instances of Not Applying Due to Lack of Awareness of the Benefit Scheme Despite Having Housing Needs

Although various housing projects have been implemented for decades by institutions including the Ministry of Defense and its subsidiary "Api Wenuwen Api" Fund, the National Defense Fund, and the Ranaviru Seva Authority to fulfill the housing needs of war heroes, war hero families living in houses lacking even basic amenities were identified. Many war hero families, despite having housing needs, did not receive benefits due to a lack of proper awareness regarding the Fund's benefits and the application procedures.

- (i) S /15Q 00378- (L.C.) This war hero joined the Sri Lanka Army on 05 November 1991, and retired after serving until 28 February 2022, in the Ayyakkachchi area, Jaffna. Despite having applied for housing assistance for over 8 years, it was revealed that he had not received any benefits. He and his family of seven (including a kidney patient) currently reside in a house in the Medawachchiya area. Photographs taken in January 2023 of the residence are shown below.

- (ii) **S /458988 - (40% Disabled Retired War Hero)** This war hero joined the Army in 1995 and was injured in a mortar attack in 1997 while on active duty. He retired on July 2, 2014. Although the foundation work was done to build a house, construction was halted due to financial difficulties. Despite applying for housing assistance funds for several years, he had not received any assistance even by 20 January 2023. He and his family of seven, including his wife who is battling cancer, live in a house located in Nochchiyagama. Below are photographs of the house and the foundation laid for construction.

Photograph No. 15

- (iii) **S/410972** – This war hero joined the Sri Lanka Army in 1996 and was killed in action on 18 May 2008 during a military operation in Mannar.

At the time of his death, he was unmarried. His mother, who owns the land where an incomplete house has been partially constructed, had submitted requests to both the Ranaviru Seva Authority and the mobile service of the Ministry of Defence in Saliyapura for assistance in completing the remaining construction. However, as of 31 December 2023, she had not received any benefits, and the essential parts of the house remained incomplete. Below are photographs depicting the condition of the house.

- (iv) S/2Q/1621 - This war hero died on 18 October 2008, in Akkarayankulam, Kilinochchi, due to a terrorist attack while engaged in operational duties.

Although an application was submitted to the Ranaviru Seva Authority for housing assistance, the assistance had not been received as of 31 December 2023. It was revealed that an application had not been submitted to the Api Wenuwen Api Fund for housing assistance due to a lack of awareness regarding the Fund's housing assistance program. The war hero's widow, W.P. Jayampathi Wijenayake, along with three other family members, including a child suffering from epilepsy, resides in the house. Several photographs depicting the condition of the house are shown below.

- (vi) S /362939 - This war hero sacrificed his life on 11 November 2007 in a terrorist attack and was posthumously awarded the "Parama Weera Vibhushana" medal in recognition of his operational service.

The war hero's widow, unable to complete the construction of their house, had applied for housing assistance through the Ranaviru Seva Authority. However, it was revealed that no financial assistance had been received as of January 2023. It was also discovered that an application had not been submitted to the Api Wenuwen Api Fund for housing assistance due to a lack of awareness regarding the Fund's housing assistance program. The war hero's widow resides in the incomplete house with two children pursuing higher education. Several photographs of the unfinished house are shown below.

(vii). S/56788 - (75% Disabled Retired Officer)- This war hero joined the Army on 30 December 1988, and sustained injuries while engaged in operational duties due to an attack. He was retired on 30 December 30 2008 on medical grounds. Although he applied for housing assistance through both the Api Wenuwen Api Fund and the Ranaviru Seva Authority to complete the remaining construction of his partially built house, it was revealed that no financial assistance has been received to date. Several photographs depicting the current condition of the house are shown below.

- (xii) S/198360 – This war hero enlisted in the Army on 20 July 2008, and died in active service on 20 November 2008. His parents applied for housing assistance from the Ranaviru Seva Authority; however, it was revealed that no financial aid had been received. Although it was observed that the family required full housing assistance, it was also found that due to a lack of awareness, they had not applied for benefits from the "Api Wenuwen Api" Fund or any other source.

Below are several photographs of the partially constructed house where the war hero's parents and two brothers currently reside.

3.6.2.2 Despite the Need for Benefits, Instances Where Applications Could Not Be Made Due to Land Ownership Issues and Other Determining Factors

It was observed that certain weaknesses in the criteria considered for granting benefits from the Fund had resulted in some war hero families being unable to receive benefits. This was particularly evident in cases where, despite the absence of a house suitable for actual residence and the existence of a permanent residential land, the ownership of such land was required to be under the beneficiary or their spouse. As a result, war hero families residing permanently on undivided lands, inherited parental properties, or lands with permit-related issues were unable to receive benefits. Accordingly, it was observed that there was a need to amend or relax the criteria to ensure that war heroes living in various incomplete housing units could also receive benefits from the Fund. A few such examples are presented below.

(a) Weaknesses in the Criteria

S/500893 – (St.Ser) - Despite enlisting in the Sri Lanka Army on 17 April 1989, and serving in operational duties in the Northern and Eastern provinces, this war hero was rendered 100% disabled due to a terrorist attack in Kilinochchi on 04 June 1998. As a result, he now relies on a wheelchair for mobility. It was observed that the roof of the semi-constructed house in which he resides is in a deteriorated condition. Although he has attempted for 25 years to obtain financial assistance to complete the house due to his disability, it was revealed that as of 31 December 2024, the request remains unfulfilled. Since the fund does not provide benefits for semi-constructed houses in need of roof repairs, he had not applied for assistance.

Photographs depicting his residence and its existing deficiencies are provided below.

Photographs No. 57 to 58 – The Unfinished and Deteriorated Roof of the Residence of S/500893 (St.Ser)

Photograph No. 57

Photograph No. 58

(b) Lack of Land Ownership

- (i) X/S-32622 – Minor Officer (Retired)- This war hero enlisted in the Sri Lanka Navy on 26 February, 2001, and, after completing 20 years of service, retired on 16 April 2023. Despite residing in a partially constructed house with his family, including a chronically ill child, he was not eligible to receive benefits from *the* Api Wenuwen Api Fund, as the land lacked a deed or permit. Below are several photographs of the partially constructed house.

Photograph No. 59

Photograph No. 60

- (iii) 414830 – (L.Co.)- This war hero lost his life while engaged in operational duties in Mavil Aru and his mother is currently residing in a flood-prone semi-constructed house. Since he was married at the time of his passing, it was observed that, under the existing criteria of the Api Wenuwen Api Fund, housing assistance could not be granted to his mother (War hero's wife has left the mother). Although various programs and non-statutory funds operate to support war hero families and their dependents, it was observed that no suitable solution had been provided for such exceptional cases.

(c) Failure to fully meet the condition of completing the walls and roof.

- (i) The war hero bearing service number S/317270 (disabled 25%) enlisted in the Army on 30 August 2002, and was retired due to disability on 30 August 2007. While residing in a rented house, he commenced the construction of a house on a purchased plot of land. Although an application was submitted to the Api Wenuwen Api Fund for financial assistance to complete the remaining construction, the Fund had rejected the request due to the condition that “at least the walls and roof must be completed” to qualify for partial housing benefits. Below are several photographs of the house under construction.

Photograph No. 66

(d) Providing benefits only for the ground floor.

- (i) The war hero bearing service number S/ 20495 (100% disabled) was retired from the Air Force due to disability on 24.09.1999, and now lives with the support of a wheelchair. The ground floor of his house was constructed through a bank loan, and six family members, including his three children, reside in the limited space available. Although financial assistance was expected from the Api Wenuwen Api Fund to complete the remaining sections of the upper floor, the request was not granted due to the condition that semi housing benefits are provided only for the ground floor. Below are several photographs of the house.

Photographs No. 67 and 68 – The partially constructed upper floor of the house belonging to the war hero S/20495 (100% disabled).

Photograph No. 67

Photograph No. 68

- (ii) The war hero bearing service number S/451988 (30% disabled) sustained a disability while serving in the Army in 1995. The ground floor of his house has been constructed, and four family members, including his two children, reside in the limited space available. Although financial assistance was expected from the Api Wenuwen Api Fund to complete the remaining sections of the upper floor, the opportunity to receive benefits was lost due to the condition that semi housing benefits are provided only for the ground floor. Below are several photographs of the house.

3.6.3 War Hero Residences Rendered Hazardous Due to Natural Disasters.

Following notifications regarding the risks of residing in houses affected by natural disasters such as floods and landslides, some war heroes continued to live in these hazardous dwellings for several years. During audits, it was observed that these war heroes, who endure physically challenging conditions, have requested suitable housing. However, in certain instances, the provision of land or housing facilities has not been possible.

Accordingly, it has been observed that war heroes who sustained a complete disability or a disability percentage exceeding 75% during active service are facing severe difficulties due to the lack of a house or land for residence. Examples are provided below.

- i. The war hero bearing service number S/406953 (75% disabled) sustained injuries during active duty in 1998. The slope where his residence is located was affected by a landslide, and on 01 November 2021, it was declared unsafe for habitation. However, during an inspection on 24.10.2023, it was revealed that the war hero and his family, including three children, were still residing in the hazardous house. Although vacant houses/ lands were available within Ranaviru Villages, a solution to this housing issue could not be provided.

Photograph No. 71

- ii. The war hero bearing service number S/400557 (85% disabled) sustained injuries during active duty on 01.10.1995. The slope adjacent to his residence has been affected by a landslide, and as of 30.09 2023, it was officially reported that there remains an ongoing risk of further soil instability. During an inspection on 25.10.2023, it was revealed that the war hero and his family were still residing in the hazardous house. Although the Ranaviru Seva Authority approved housing assistance for him in 2017, a solution to his housing issue had not been provided as of 25.10.2023.

Photographs No. 72 and 73 – Residence of War Hero S/400557 and the landslide-prone mountain slope.

Photograph No. 72

Photograph No. 73

- iii. The war hero bearing the service No.S/309920 (deceased) died in the line of duty on 01.02.2009. The family had been notified to vacate their residence due to the risk of landslides in the area where their home was located. The house had become overgrown and dilapidated, and the family is now living in a rented house. Although the government has provided land for the construction of a new house, it has been revealed that building a house is challengeable due to economic difficulties. The affected war hero's family was not adequately informed about the benefits available from the "Api Wenuwen Api" Fund. Despite the necessity of financial assistance from the Fund, no priority was given to their case.
- iv. S/360967 (Deceased) – This war hero died in action on 04.11.2008. The authorities had issued a notice instructing residents to evacuate their houses due to the risk of landslides in the area where his residence is located. Although the government allocated land for the construction of houses, it was revealed that financial difficulties hindered the construction of a new house. Furthermore, during an inspection on 25.10.2023, it was discovered that the family was still residing in the hazardous house. No proper awareness had been provided regarding the benefits available from the "Api Wenuwen Api" Fund for these affected war hero families. Despite the essential need for financial assistance from the Fund for this war hero's family, no priority had been given.

3.6.4 Provision of Benefits for the Construction of Additional Houses or Extensions

Despite the fact that many war heroes are in need of housing assistance to secure a basic and suitable living space, it has been observed that certain parties who have already obtained benefits and possessed adequate housing have received benefits for purposes such as constructing additional houses or adding extra sections to already suitable residences. Accordingly, the process of identifying and prioritizing war heroes who genuinely lack suitable housing and require housing assistance was found to be weak. Furthermore, no proper evaluation of the approved criteria had been conducted to identify such beneficiaries.

Several such instances are outlined below:

(i) **P. C. 20001 – (Disabled)**

This war hero was granted full housing benefits in 2020, and the construction of the house was completed by work teams. However, from the date of completion until the audit inspection (11 January 2023), no one had occupied the house. It was revealed that the beneficiary was residing in the Mathugama area. Given that more than two years had passed since construction without permanent occupancy, prioritizing such cases for housing benefits is questionable. Below are several photographs of the house that was completed and closed:

Photographs No. 74 and 75 – The house constructed for war hero P.C. 20001, which remains unoccupied.

Photograph No. 74

Photograph No. 75

(ii) O/66956 – (Serving)- Although this war heroine already possessed a fully completed and suitable house for residence, she had been granted semi housing assistance for the construction of additional, non-essential extensions. It was observed that, based on the criteria and limitations considered when granting semi housing entitlement, prioritizing such cases was problematic. Below are several photographs of the house:

Photographs No. 76 and 77 – The occupied house and the additional extensions constructed.

Photograph No. 76

Photograph No. 77

- (iii). O /62249 – (Lieutenant Colonel)- This war hero was granted full housing benefits in 2021, receiving an initial installment of Rs. 500,000. According to the available information, this housing assistance and construction work teams were provided for the construction of a four-story building comprising four housing units with a total area of 4,940 square feet. However, upon reviewing the relevant file, it was recorded that this beneficiary already owned other housing units. Therefore, prioritizing such cases when granting benefits was problematic. Furthermore, although the first installment was disbursed on 01 April 2021, no construction work had commenced as of 20 January 2022. Consequently, the construction work teams assigned to this project had been withdrawn.

Furthermore, according to the file submitted for audit, it was observed that this housing assistance had been granted without any of the required documents typically considered when awarding full housing benefits. Accordingly, the certificate confirming the lack of a permanent residence, or any other documents mentioned in Section (b) of the letter MOD/ADM/AW/07/MS(I) dated 21 September 2020, were not provided with the submitted benefit application. Only uncertified photocopies of the land layout and building plans were included in the file.

Photographs No. 78 and 79 – The land where construction was abandoned.

Photograph No.78

Photograph No. 79

3.6.5 The loss or limitation of the opportunity for relatives of retired or deceased war heroes to apply for benefits from the Fund.

It was observed that after the management board determines the number of benefits to be awarded each year, the selection of beneficiaries is carried out by military regiments and their sub-units, and based on this, the year's priority lists are prepared. While personnel serving in camps have a greater ability to submit applications, it was revealed that applications are not being solicited or awareness is not being provided to the relatives of disabled, retired, or deceased war heroes. Due to this, it was revealed during audit inspections that war hero families living in very difficult and harsh conditions with housing needs are unaware of the Fund benefits. It was reported that some camps even refused to provide applications to retirees. However, there was no mechanism in place to inform the relatives of retired or deceased war heroes, nor was there a mechanism for them to submit their applications directly to the Fund.

When considering the nature of the benefit allocation over the three years from 2020 to 2022, it was observed that there was a greater emphasis on granting benefits to individuals currently serving. Further details are provided in Annex 9.

Year	In the Service		Retired		Total
	Number	Percentage	Number	Percentage	
2020	313	80%	77	20%	390
2021	147	49%	153	51%	300
2022	08	72%	03	28%	11
Total	<u>468</u>	67%	<u>233</u>	33%	<u>701</u>

Table No. 01 - Details of benefit allocations for housing assistance from the Api Wenuwen Api Fund for both serving and retired personnel.

3.7 Utilization of Housing Projects

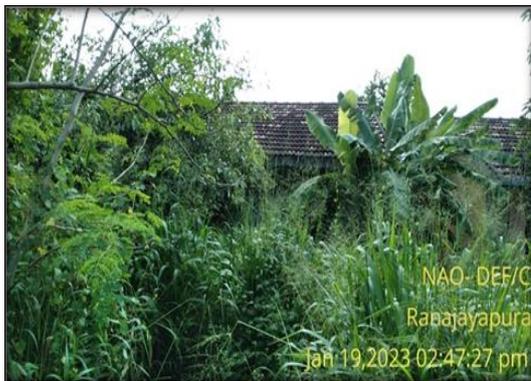

The findings from the audit examination conducted on the utilization of houses built under the benefits from the Fund, within housing projects supervised and managed under the Fund's control and linked to war Ranaviru villages, are outlined below.

3.7.1 Ipologama Ranajayapura Housing Project

- (i) The Ipalogama War Heroes Housing Project, comprising 1,509 houses, was implemented utilizing a loan of Rs. 3,500 million obtained from a state bank on a reimbursement basis by the Treasury. Houses were provided on a transfer basis to the beneficiaries after they completed the payment of 200 equal monthly installments of Rs. 4,000 per house to the 'Api Wenuwen Api' Fund.

It was observed that 1,493 houses in this complex had been allocated to members of the Tri-Forces, but as of 19 January 2023, a total of 395 houses, or 26 percent, remained unoccupied. Some houses were overgrown with weeds and deteriorating due to being abandoned for several years. The Fund had not focused on taking action to reclaim these long-unoccupied houses as per the agreements, or to allocate them to other war hero families with housing needs, or to take any other suitable measures. Furthermore, it was observed that no suitable program had been implemented to prevent these houses from being destroyed by overgrowth. Several photographs are shown below.

Photographs number 80 and 81 show the overgrowth of weeds and vegetation in and around the abandoned houses and lands.

Photograph No. 80

Photograph No. 81

(ii) Additionally, it was identified that 57 more houses were occupied by individuals who were not the legal beneficiaries. However, the Fund had not focused on taking the necessary actions as per the agreements or other suitable measures regarding this situation. It has also been reported that various misconducts, including drug sales, occur due to these unauthorized occupants, but it was not revealed that satisfactory actions were taken in this regard.

(iii) It was not possible to be satisfied that the housing needs of the beneficiaries had been accurately assessed when identifying housing beneficiaries, and it was also observed that the benefits of the costs incurred by the government for the construction of the 452 unoccupied and unauthorized occupied houses identified above had not reached the war hero community with housing needs.

3.7.2 Utilization of Land and Housing in Ranaviru Villages

According to the scope of the Ranaviru Seva Authority, the authority identifies landless war heroes and identifies government or other lands that can be provided to them, and these lands are provided to war heroes through the relevant Divisional Secretaries for the purpose of building houses. Additionally, the Fund has constructed complete houses for some of the parties to whom land had been provided under the full housing assistance program. The following facts were revealed during sample inspections conducted in these Ranaviru villages.

- (i) Although lands were allocated to war heroes who did not have a house or suitable land to build one, with the intention of constructing houses, it was observed that the utilization of these lands for building houses was at a very low level. Despite the passage of 7 to 11 years since the allocation of the lands and houses, no houses were built or occupied. Therefore, it was found that the lands or houses were not provided to those in genuine need of a house or land, and there was no effort made to identify the individuals who truly needed housing.
- (ii) Photographs numbered 82 to 87 show the abandoned houses and land located at the Papiliyagahalanda area in Beruwala, with the land overgrown and encroached by jungle.

Photograph No. 82

Photograph No. 83

Photograph No. 84

Photograph No. 85

Photograph No. 86

Photograph No. 87

(iii) According to data provided by the Ranaviru Seva Authority, two war Ranaviru villages in the Kalutara district were selected for sample inspection. During an inspection conducted on 27 October 2023, it was observed that land plots in these villages were either completely unutilized or with partially built houses and abandoned, resulting in overgrowth of weeds. Details are as follows.

Ranaviru Villege	Year of Land Allocation	Number of land plots	Number of plots with permanent residences	Observations as of 29 October 2023
Kindelpitiya - Horana	2012	217	40	<ul style="list-style-type: none"> • Out of the 40 land plots allocated to officers, only 1 was occupied. • Some land plots had been sold, or the houses were rented out. • Approximately 177 land plots had been unoccupied since 2012.
Papiliyagahalandanda - Beruwala	2016	74	07	<ul style="list-style-type: none"> • Provided with housing assistance during the period of 2010-2019. • More than 20 partially constructed houses, built using this assistance, were overgrown with weeds due to abandonment.

Table No. 2.

- (iv) The 'Api Wenuwen Api' Fund constructed and provided four complete houses in the Kindelpitiya - Horana Ranaviru village area in 2011, but three of those houses were abandoned and unoccupied. This raises concerns about whether the Fund identifies genuinely needy parties when providing complete housing.

4. Recommendations

- (i) Suitable programmes should be introduced and implemented in a manner that fulfills the other goals and objectives of the fund as determined by the Act. (Reference 3.1.1)
- (ii) In accordance with Section 13 of the Act, rules or regulations should be formulated and enforced regarding the distribution of funds under the financial assistance programme for providing housing facilities to members of the Armed Forces. (Reference 3.1.2)
- (iii) A proper awareness programme should be implemented to inform all relevant parties, including the families of deceased, disabled, and retired personnel, to ensure that priority applicants are identified in accordance with the proposed scheme when calling for housing benefit applications. (Reference 3.1.2)
- (iv) The Ministry should independently and transparently carry out the process of calling for applications, conducting interviews, and verifying eligibility for benefits.
- (v) In granting benefits, higher priority should be given to deceased, disabled, and retired war heroes and their families who are in need of housing.
- (vi) A centralized database should be established by collecting information at the Divisional Secretariat and Grama Niladhari Division levels regarding the war heroes who have died or became disabled in action, ensuring that a single applicant cannot receive housing assistance from more than one institution, such as the Api Wenuwen Api Fund, the Ranaviru Seva Authority, or the National Defence Fund. This database

should also facilitate the selection of beneficiaries for future welfare programs. (Reference 3.1.3)

- (vii) It is essential to establish a long-term strategic plan for the Fund by setting income targets, revenue enhancement goals, operational objectives, and conducting a SWOT analysis for the next three years. (Reference 3.2.1)
- (viii) Attention should be focused on enhancing the Fund's revenue sources and managing them efficiently to ensure its long-term sustainability while fulfilling its intended objectives. (Reference 3.3.2)
- (ix) Financial assistance for housing should be allocated to the most deserving parties by introducing appropriate and robust selection criteria that prioritize housing needs and ensure a dignified life for disabled war veterans.
- (x) Effective coordination should be maintained among institutions engaged in similar activities to ensure that assistance is granted to the rightful beneficiaries while preventing duplication of aid.
- (xi) The fund should identify priorities through a proper methodology.
- (xii) Consideration should be given to implementing a system where financial assistance is directly provided to the selected beneficiaries.
- (xiii) A program should be introduced to prevent weak monitoring of the Fund by addressing the delegation of all tasks, including selection, supervision, and benefit disbursement, to the tri-forces.
- (xiv) The implementation of a monitoring mechanism by the Fund to oversee both the residency in the constructed houses and the execution of construction activities.

Beneficiary Selection Criteria

(Reference to Paragraph - 2.1.6)

Criteria for Selecting Beneficiaries for the Fund's Full Housing Project

- i. Calling for applications from all war heroes/nearest relatives applying for benefits.
- ii. Selection of war hero beneficiaries with following qualifications:
 - Must have been enlisted in the military service before 18.05.2009.
 - Must be 100% disabled due to active service duties.
 - Must have a disability exceeding 65% due to active duties, resulting in the inability to engage in any employment.
 - Death caused due to active service duties.
 - Must be married (not applicable for disabled war heroes).
 - Must own a land suitable for house construction, either by the beneficiary or the spouse.
 - Priority is given to those who have served in other ranks.
 - Must confirm that they do not own a house in their name.
 - Regimental recommendation.
 - Must not have received welfare assistance from any other institution.
- iii. The Grama Niladhari certificate must confirm that the beneficiary does not own a house for residence either through parental inheritance or otherwise.
- iv. The information and relevant recommendations submitted to the Interview Board will be reviewed. If deemed eligible, necessary clearance reports will be obtained under the supervision of the designated coordinating officers.
- v. Entering into agreements with war heroes who have been selected as eligible for benefits based on the interview panel observations and clearances.
- vi. Determining the appropriate design to be built on the land from among the allocated house plans and constructing houses under the methods determined by the Ministry using the methods of the designated working teams.

Criteria for Selecting Beneficiaries for the Fund's Semi-Housing Project

- i. Calling for applications from all war heroes/nearest relatives applying for benefits.
- ii. Selection of war hero beneficiaries with following qualifications:
 - Must have been enlisted in the military service before 18.05.2009.
 - Must be engaged in active service.
 - Must be married (not applicable for disabled and deceased war heroes).
 - Ownership of the residential house must be either with the applicant or the spouse.
 - Priority is given to those who have served in other ranks.
 - Giving priority to meeting the requirements for completing the ground floor of the residential house designs.
 - Must not have received welfare assistance from any other institution.
- iii Must be verified through certified photographs that the residential house consists of parts that have not been constructed according to the prescribed plan.
- iv If the information submitted to the interview panel and the relevant recommendations are deemed suitable after consideration, estimates will be prepared under the supervision of the relevant coordinating officers, with the deployment of a quantity surveyor, up to a maximum of Rs. 750,000
- v Providing the estimated financial resources required to complete the house in three phases, as non-refundable financial donations as needed.
- vi When providing the donations in phases, the recommendations of the district coordinating officers will be considered.

Beneficiary Selection Methodology

(Reference to the Paragraph - 2.1.6)

1. Calling for lists of war heroes in need of housing assistance from the Tri-Forces and Police Welfare Directorate.
2. Verification by an interview panel appointed by the Ministry, and preparation of a prioritized list of names based on the interview reports.
3. Deployment of quantity surveyors and coordinating officers to estimate the houses of selected semi housing beneficiaries, and deployment of engineering work teams to inspect the land of selected full housing beneficiaries and submit reports.
4. Signing agreements with beneficiaries related to the semi housing estimates presented with recommendations by quantity surveyors and coordinating officers, and beneficiaries eligible for full housing construction, by calling them to the Ministry.
5. Providing funds to the Tri-Forces Commanders to distribute the first installment of financial benefits to the beneficiaries, based on the estimates presented in three installments.
6. After the first installment is provided, beneficiaries will be given a one-month period to carry out the corresponding construction work. During this phase, coordinating officers will be deployed to supervise whether the construction is being carried out properly, and financial benefit assessment forms confirming the completion of the relevant construction will be called for.
7. After the financial benefit assessment forms for the first installment are provided, the estimated financial resources for the second installment will be provided to the accounts of the Tri-Forces Commanders.
8. After receiving the financial benefit assessment forms confirming the completion of the construction related to the second installment, the estimated financial resources for the third installment will be provided to the accounts of the Tri-Forces Commanders.
9. After the completion of the construction related to the third installment, financial benefit assessment forms confirming the completion of the construction will be requested.
